

Strategy Companion Analyzer 3.0.2360 Hot Fix 1 Release Notes

Change History

New Features								
Item	Description	Comments						
	New web service ExportReport() function to generate Excel and PDF file from an Analyzer report	Exported PDF/Excel files are saved to disk so you can for example manage your own schedule task or decide how user will receive these files.						
	New conditional formatting for text gauge	<p>Gauge Setting</p> <p>Font: Arial Size: 12 Color: [Color]</p> <p>Content: "This Month : " + format([Measures].[Lead Count], [Converted Date], [Y-M-D], CurrentMember, [Default.Owner Department], [Owner Department].[Direct Sales]), "#,##0")</p> <p>Enable Number Display Rule</p> <table border="1"> <tr> <td>Color value MDX: ([Measures].[Lead Count], [Converted Date], [Y-M-D], CurrentMember, [Default.Owner Department], [Owner Department].[Direct Sales])</td> <td>when value is >= 1000</td> </tr> <tr> <td></td> <td>when < 1000 and >= 500</td> </tr> <tr> <td></td> <td>when < 500</td> </tr> </table> <p>Color Level: 3 Arrows Status Icon: Reverse Icon Order</p> <p>OK Cancel MDX Assistant</p>	Color value MDX: ([Measures].[Lead Count], [Converted Date], [Y-M-D], CurrentMember, [Default.Owner Department], [Owner Department].[Direct Sales])	when value is >= 1000		when < 1000 and >= 500		when < 500
Color value MDX: ([Measures].[Lead Count], [Converted Date], [Y-M-D], CurrentMember, [Default.Owner Department], [Owner Department].[Direct Sales])	when value is >= 1000							
	when < 1000 and >= 500							
	when < 500							
Enhancements								
Item	Description	Comments						
Bugs Fixed								
Item	Description	Comments						
1	FS#2964 Analyzer Mobile does not work with shortcuts	<p>Fixed. In addition, four new WebService APIs for create, copy, update, and delete shortcuts.</p> <pre>public Shortcut CreateShortcut(SecurityContext context, Shortcut shortcut) Example : Shortcut shortcut = new Shortcut(); shortcut.Name = name; shortcut.Description = desc; shortcut.ParentId = parentId; shortcut.CreatedBy = ownerId; shortcut.ReportId = reportId;Analyzer2005 az = GetService(); shortcut = az.CreateShortcut(null, shortcut); CheckState(shortcut); public Shortcut CopyShortcut(SecurityContext context, int shortcutId, int destFolderId, int newOwnerId) Example : Analyzer2005 az = GetService(); Shortcut shortcut = az.CopyShortcut(null, shortcutId, parentId, ownerId);</pre>						

	<pre>CheckState(shortcut); public Shortcut UpdateShortcut(SecurityContext context, Shortcut shortcut) Example : Analyzer2005 az = GetService(); Shortcut shortcut = az.FindCatalogItemById(null, shortcutId) as Shortcut; CheckState(shortcut); shortcut.Name = name; shortcut.Description = desc; shortcut.ParentId = parentId; shortcut.CreatedBy = ownerId; shortcut.ReportId = reportId; shortcut = az.UpdateShortcut(null, shortcut); CheckState(shortcut); public Shortcut DeleteShortcut(SecurityContext context, int shortcutId) Example: Analyzer2005 az = GetService(); Shortcut shortcut = az.DeleteShortcut(null, shortcutId); CheckState(shortcut);</pre>
2	<p>FS#3294 Customer names are not shown in the user selection window in the "send report" function</p> <p>Add an new key to allow search to include searching for user's full name</p> <p><add key="Admin.UserFullNameSearch" value="true" /></p>  <p>By adding this key, it will also add a new "Manage User Profile Cache" button to load new or update user information from domain server to Analyzer's cache (otherwise Analyzer only reads new information when it restarts next time).</p> <p>If Admin.UserFullNameSearch is <i>false</i>, there is also a new Refresh button under the Manage User Profile screen. Clicking on the Refresh button tells Analyzer to read the user information from Analyzer's own database once more.</p>

3	FS#3337 Send Message issue. User unable to open message with server error.	Fixed issue where recipient is unable to open the message from Send Message function.
4	FS#3340 Create and Update Folder method do not have Company ID option for SaaS version	Folder object returned by CreateFolder(), UpdateFolder(), FindCatalogItemById(), and ListChildren() will now include CompanyId.
5	FS#3203 Load balance cache delay when create/modify/delete Analyzer schema objects	Added following new key to modify synchronization interval between LB servers. Default interval is 20 minutes. The unit is in minutes. Setting value to zero will remove the delay and synchronize immediately. <code><add key="Admin.LBSyncInterval" value="0" /></code> Please note that this key only works when Admin.LBAutoSync key is set to <i>true</i> .
6	FS#3202 Iframe – Header and footer Management on Timeout	
7	FS#3304 Web service ImportReportWithDataSourceInfo() failed when the name of the folder has a quote.	
8	FS#3397 Allows Anonymous Authentication access to Analyzer	New “Admin.AllowAnonymous” key. When set to <i>true</i> , Analyzer will allow anonymous authentication access. When set to <i>false</i> , Analyzer will redirect anonymous login to a blank page. Default is set to <i>false</i> . <code><add key="Admin.AllowAnonymous" value="true" /></code>
9	FS#3356 Perform drill-down on a maximized chart then minimize it caused pivot table display issue.	
10	FS#3298 Report Filter needs a Select All button to select all the members.	Add context menu for additional command to expand, collapse, and select all members. 
11	FS#3332 Chart Attribute UI	Added UI to set chart attributes.
12	FS#3286 Copy Sheet with Alerts causing serious performance issue.	
13	FS#2512 Pivot table filter and export to excel quick filter label not updating	
14	FS#2972 Change default scope setting of Define Filter Relationships to <i>none</i> .	Add a new key to define default behavior. By default it works as before so to change it <i>none</i> please add the following key. <code><add key="DefaultFilterRelationship" value="None"></code>

		Possible values are: <i>None</i> , <i>EntireReport</i> , <i>CurrentSheet</i> , <i>UserSpecified</i> .
15	FS#2182 Ability to create Growth on calculated measures created by SCA	
16	FS#2387 In a pivot table, Growth on rolling period is not calculated correctly.	CoalesceEmpty(Sum(LastPeriods(3, [Date.Calendar].CurrentMember), [Measures].[Order Quantity]), NULL)
17	FS#3138 SSAS2014 data package support	Now Data Package can be processed correctly while using SQL 2014 (SSAS 2014)
18	FS#3201 The "All" level is not translated in French in the filter pane (Set Filter)	
19	FS#3361 Quick Filter option on KPI Viewer and Process Diagram has no effect.	
20	FS#3358 MultiView/Report Filter issues	Fixed two issues with MultiView <ol style="list-style-type: none"> 1. Cascaded Report Filter inside MultiView does not work 2. Report Filter color style does not work while in side MulitView
21	FS#3303 Excel export issue when values have some angle brackets the exported file would become fragmented.	
22	FS#3297 Unable to change color of the Bullet gauge element in the Scorecard	
23	FS#2606 Defining Documents no longer works when adding Shared reports	IAM/SCA-UK
24	FS#3336 Parts of the KPI Viewer elements has un-used Delete button in Detail Settings.	
25	FS#3338 Enter a gauge's Detail Settings click Cancel then enter again click on OK will reset values back to zero.	
26	FS#3347 Chart legend disappears when it exceeds limit set by Export.ExcelLegendItemLimit	
27	FS#3373 Indicator Line Gauge adds zero length line so it can't be seen by the user.	
28	FS#3345 On IE11 Indicator gauge has white background that covers up the background image.	
29	FS#3349 When slicer member name contains special symbols will cause export problem	
30	FS#3300 Right side of the	

	exported PDF report gets cut-off	
31	FS#3398 Prevent old report might have duplicated IDs	
32	FS#3161 Problem export "flat" format to Excel when member properties are used on the first level, cross-join with other dimension.	
33	FS#3385 Using Chrome, Quick Filter list is not under the filter after zoom in and out	
34	FS#3399 Measure Selector performance become slower when there are many measures	
35	FS#3400 Add new AppKey to hide the Export to PowerPoint function.	Added new AppKey to hide Export to PowerPoint icon <code><add key="Export.HidePPT" value="true" /></code>
